AIRGUN OUTREACH SERIES

The Adaptive Sports USA National Veteran Airgun Outreach Series includes chapters across the country that have an interest in fostering the sport of shooting (air pistol/air rifle) for individuals with a disability, including disabled veterans and/or disabled members of the Armed Forces. Adaptive Sports USA has helped create a program in various geographic locations and will help orchestrate virtual matches moving forward amongst these partner locations. Program offerings differ by location, all giving participants the opportunity to gain instruction and unleash their competitive spirit in the sport of shooting.
